BORN IN LONDON
RAISED ON THE RIVIERA

VOYAGE, VOYAGE...

Born and raised in Camden Town, London, a neighbourhood where music and culture thrive, **mat the dj** spent his early years immersed in music. From the age of 15, he honed his skills by frequenting some London's most iconic venues, working in record shops and DJing in clubs, bars, dancefloors and parties across the city, developing a vast expertise covering all genres, decades and continents.

He cut his teeth playing for London's epic dancefloors (XOYO, Ministry of Sound, East Village) and was a resident DJ on Resonance FM, Rough Trade and ROVR Radio. This experience taught him that to deliver an exceptional performance, it is essential to know how to capture energy and create moments that resonate, to **understand what makes people move**, when to **build energy** and when to **release it**.

Since moving to France in 2019, he has performed at over 100 exclusive venues in France, Italy and Spain, represented by the agency **Wildfire DJs**, based in Cannes on the Côte d'Azur.

His sets have soundtracked an impressive portfolio of events, from prestigious weddings to the Cannes Film Festival and the Monaco Grand Prix. He specialises in creating sophisticated mixes that enrich experiences, whether it's sunset sessions, chic soirées or hi-energy dancefloors.
